

How to remove the model from the box and base without damaging your 1938 Phantom Corsair

<p>Step 1 Open box and see the Left and Right Wings holding the model base</p>	<p>Left Wing</p>  <p>Right Wing</p>
<p>Step 2 Hold the bottom of the box and slide the Left Wing up</p>	
<p>Step 3 Hold the bottom of the box and slide the Right Wing up</p>	
<p>Step 4 Remove both Wings from the box and set aside</p>	

<p>Step 5 Hold ribbon in each hand.</p> <p>Hold the back ribbon while gently pulling on the front ribbon.</p> <p>The model will tilt-up.</p>	
<p>Step 6 Continue lifting the front ribbon until you can slide your hand under the base.</p> <p><i>DO NOT Grab</i> the model to lift it as this may damage the model.</p>	
<p>Step 8 With both hands remove the model from the case.</p>	
<p>Step 9: Optional To remove the model from the base.</p>	<p>Turn the base over taking care not to scratch the model. Remove the screw covers and then the screws holding the model to the base.</p>
