Automodello™ is proud to announce the very first release in its new line of premium 1/43 scale replicas: the Series 200 from Griffith Motorcars—a classic 60's blend of British finesse and American V-8 muscle.

Automodello™ has enlisted none other than Raffi Minasian—one of the best known and most respected designers in the diecast industry—to craft its inaugural and future releases, with technical design assistance from Christopher Keller.

Automodello™ is committed to producing the very best Griffith model available anywhere. The Automodello™ Griffith 200 is the first and only replica officially endorsed by Jack Griffith himself, and every Founder's Edition will carry his signature.

Technical assistance on the model design was provided by Mike Mooney, president of the Griffith Motorcar Club and the Griffith Car Registry.

Automodello™ will be releasing two versions of the Griffith 200—a standard edition of **262** pieces matching the total number of all Griffiths produced and an ultra-collectible "Founders Edition" of just **192** pieces—matching the exact number of original Griffith 200s produced. Each Founders Edition model is individually serial-numbered and includes a certificate of authenticity signed by Jack Griffith. As a special service to Founder's Edition buyers, Automodello will even honor requests for specific serial numbers on a first-come first-serve basis!

Both versions are available for pre-order right now through Diecasm LLC ([www.Diecasm.com](http://www.Diecasm.com)) and from other fine diecast dealers. Go to [www.automodello.com](http://www.automodello.com) for a full list of authorized dealers. Expected delivery is early Fall 2009 for both versions. MSRP is \$95 for the standard edition, \$195 for the Founders Edition.

Additional information on Automodello, the Griffith 200 and future releases can be found at [www.automodello.com](http://www.automodello.com).

A limited number of review samples are available – to request one, please email us at [Sales@Automodello.com](mailto:Sales@Automodello.com) or call 877.343.2276.
